## Save Tree Save Life

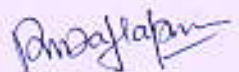

Date: 06-01-2014

Trees are very useful in our life. Trees are our best friends. They play a very important role in our life. We cannot live without them. They give us timber, paper and firewood. In these activities we the faculties from computer engineering department along with students went to villages and Pune city to spread the message of **“save tree Save Life & Save the World”**

Save tree Poster

कतन भज हमार हात ।  
बाँध तने में उसके रस्सी  
चाहे जहाँ कहीं ले जाते ।

जहाँ कहीं भी धूप सताती  
उसके नीचे झट सुस्ताते,  
जहाँ कहीं वर्षा हो जाती  
उसके नीचे हम छिप जाते ।

लगती जब भी भूख अचानक  
तोद मभार फल उसके गवने

Save tree Poster

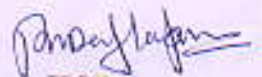

The program based on theme "Save Tree save Life" was organized by department of Computer Engineering and student's association ICON, on 15/2/13, under social awareness among students. All the faculties, President, Vice President and members of ICON and students of MMIT, participated in this event.

Trees produce oxygen that is life line of all living beings. In the hot summer we usually plan trips in the hilly areas. But if the rate of cutting Trees remains same then we don't have enough Trees to plan a trip, seasonal raining and amount of fresh oxygen will no longer be available. Trees help to clean the air, soil and water, making the earth a beautiful liveable place. Living close to trees makes us healthier and happier. It's time to SAVE Trees, protect forests and spread awareness. If you want to save trees, you can help by protecting those that grow around your home, and planting more Trees. Reduce the use of paper products, too. According to our little understanding we have found few ways to protect Trees, you can also follow them ,motivate your friends and family members to join hands together to save our beautiful earth or you can join an organization working to save Tress around your home town.

All the participants participated in tree plantation after views of Principal, HOD, ICON members about importance of tree. Also all decide to make their work paperless as much as possible to save trees.
