Activity Report
Save Girl Child

Date: 23/07/2013

Activity: Save Girl Child

Date: -20/07/2013

Venue: Lohgaon

Organized By: Mechanical Engineering Department

No of Participant: - 50

Aim of Activity: To create awareness about to save girl child

Details:

Save Girl Child activity was carried out by mechanical Engineering department for creating awareness in the peoples about importance of saving girl child. Girls are equally as important as boys in the society to maintain the social equilibrium. Few years ago, there was huge reduction in the number of women in comparison to the man. It was so because of the increasing crimes against women such as female foeticide, dowry deaths, rape, poverty, illiteracy, gender discrimination and many more. To equalize the number of women in the society, it is very necessary to aware people greatly about the save girl child. Government of India has taken some positive steps regarding save girl child such as protection of women from domestic violence act 2005, ban of female infanticide, immoral traffic (prevention) act, proper education, gender equality, etc.

Effective Steps to Save Girl Child:

- The position of girl child in Indian society is backward since ages because of the extreme desire of parents for the boy-child. It has created gender inequality in the society and has been very necessary to remove by bringing gender equality.
- Extreme poverty in the society has created social evil against women as dowry system which worsens the situation of women. Parents generally think that girls are only to spend money that's why they kill girl child before or after birth in many ways (female infanticide, dowry deaths, etc). Such issues need to be removed urgently in order to save girl child.
- Illiteracy is another issue which can be removed through proper education system for both genders.

६३

- Empowering women is the most effective tool to save girl child.
- People should be aware through some effective campaigns regarding save the girl child.
- A girl child is unsafe inside as well as outside the mother's womb. She has fear in many ways all through the life with the men whom she gives birth. She is ruled by the men whom she gives birth and it is totally the matter of laugh and shame for us. Education is the best tool to bring revolution of saving and respecting a girl child.
- A girl child should be given equal access and opportunities in every field.
- There should be safety and security arrangement for girls at all the public places.
- Family members of a girl child can be better target to make save the girl child campaign successful.
