Activity Report
Save water Save Life

Date: 17/8/2013

Activity: Save water Save Life

Date: -15/8/2013

Venue: Lohgaon

Organized By: Mechanical Engineering Department

No of Participant: - 40

Aim of Activity: To create awareness about importance of saving water.

Details:

Save water Save Life activity was carried out by mechanical Engineering department for creating awareness in the peoples about importance of saving water. Saving water means not wasting water: only using the water than we need and keeping the rest of the water clean and unpolluted. When we save water, we do so both for our generation and for future generations.

In spite of having 70% of water on earth but only 1% of water is fresh & useable and other 97% of water is salty, 2% of water is in form of ice in the glaciers & icebergs. Nowadays, human beings are destroying the environment by wasting this 1% of clean water by various ways i.e.

- excessive use of required water,
- throwing garbage into water bodies,
- Careless use of water in their various household works etc.

Following are the main benefits of saving water:

1. Less use of natural resources like Fossil fuels for making of fresh water.
2. The more water we save, it will be use by the plants & animals. This helps to maintain balance the ecology.
3. We should save water to avoid drought in the coming future.
4. We should save water for its use in agriculture.
5. We should save water for our future generations as one day it will be unavailable due to it is limited.

MARATHWADA MITRA MANDAL'S INSTITUTE OF TECHNOLOGY

DEPARTMENT OF MECHANICAL ENGINEERING

1. "A river is more than an amenity; it is a treasure."
2. "Today's rain water is tomorrow's life saver. Save It Now"
3. "Protect Your Water Bodies From Pollution."

"Wait, stop and think, what if we didn't have water to drink. Save it"

1. "Billions of People are Dying for Water."
2. "Water Covers 2/3 of the surface of the Earth but Only

"Save Water. It's not just a drop in the bucket, it's a Life"

Activity Outcomes:

We have created awareness about importance of saving water
