The Institute is affiliated with Savitribai Phule Pune University, approved by AICTE, New Delhi, and recognized by the Directorate of Technical Education, Government of Maharashtra. It is accredited by NAAC with Grade "A".

Institute Vision

To be a premier institute of techno-social excellence for the welfare of society

Institute Mission

The Mission of the Institution is to

- Integrating Innovative Pedagogy
- Implementing entrepreneurship
- Promoting global competency
- Enhancing technology transfer
- Creating excellent human resource

ABOUT DEPARTMENT

The Department of Artificial Intelligence and Data Science was established in 2021–2022. It offers a four-year AICTE-approved degree under Savitribai Phule Pune University. The program focuses on intelligent systems, data analysis, and emerging technologies, preparing students for high-demand careers in AI and Data Science.

DEPARTMENT VISION

To develop engineering professionals in Artificial Intelligence and Data Science through excellence in education, research, innovation, and ethical practices for the welfare of society.

DEPARTMENT MISSION

- M1: To impart quality education in Artificial Intelligence and Data Science through innovative and industry-oriented learning.
- M2: To promote research, innovation, and entrepreneurship in emerging AI and Data Science technologies.
- M3: To develop technologically responsible, ethical, and lifelong learners with professional competence.
- M4: To apply AI and Data Science solutions for societal welfare and sustainable development.

FDP Objectives

- Build a strong foundation in AWS Cloud Computing for AI, Machine Learning, and Data Science.
- Develop expertise in Generative AI, LLMs, Agentic AI, Prompt Engineering, Amazon Bedrock, and AI deployment practices.
- Explore emerging AI applications and research opportunities for teaching, innovation, and industry.
- Strengthen technical, analytical, and collaborative skills through knowledge sharing and best practices.

ABOUT THE FDP

The Faculty Development Program (FDP) on "Agentic AI and Generative AI using AWS Cloud" aims to provide faculty, researchers, and industry professionals with knowledge of modern AI technologies and AWS Cloud services. It covers Agentic AI, Generative AI, LLMs, Prompt Engineering, RAG, and AI application development through expert sessions, demonstrations, and case studies. The program also emphasizes responsible AI, cloud-native AI services, and emerging trends to strengthen participants' teaching, research, and innovation skills.
