Notice

All the students of MMIT are hereby informed that Department of AI & DS is organizing an expert lecture on **“AI & Innovation Sprints: Rapid Prototyping for Digital Transformation”** in association with Institute Innovation Cell (IIC) on 25th February, 2026.

This lecture will introduce participants to fast-paced methodologies for turning ideas into functional AI-driven prototypes. It will highlight practical tools, agile strategies, and real-world case studies that empower organizations to accelerate innovation and digital transformation.

"AI & Innovation Sprints: Rapid Prototyping for Digital transformation"

Event Introduction:

Artificial Intelligence (AI) and innovation-driven technologies are transforming the way organizations operate, solve problems, and deliver value. In today's rapidly evolving digital landscape, the ability to quickly design, test, and implement innovative solutions has become an essential skill for students and professionals alike. Rapid prototyping, supported by AI tools and modern development platforms, enables innovators to convert ideas into functional models within a short span of time, fostering creativity, experimentation, and practical problem solving.

With this objective, the session **"AI & Innovation Sprints: Rapid Prototyping for Digital Transformation"** was organized to introduce students to the concept of innovation sprints and the process of developing quick prototypes using AI-driven technologies. The session aimed to encourage participants to explore emerging technologies, understand real-world applications of AI, and develop a mindset of innovation and agile problem solving.

Date: 25th February, 2026

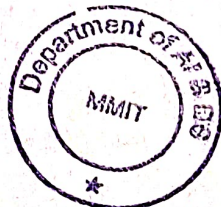

Time: 10.30 am to 12.30 pm

Mode: Offline

Venue : Seminar Hall, MMIT, Pune

Resource Person: Mr. Sachin Vishwase, Senior Partner and Director, Equations Work, Pune

Total Participants : 156 students

Objective:

- To introduce students to the concept of Artificial Intelligence and innovation sprints and their role in accelerating digital transformation.
- To familiarize participants with the concept of rapid prototyping, enabling them to quickly convert innovative ideas into working models or solutions.
- To encourage problem-solving and innovative thinking among students by exposing them to real-world applications of AI technologies.
- To provide insights into emerging digital technologies and tools that support AI development, innovation, and digital transformation.

Event Outcome:

- Participants gained a clear understanding of Artificial Intelligence and its role in driving digital transformation across different sectors.
- Students learned how rapid prototyping helps in quickly converting ideas into functional models and testing innovative solutions efficiently.
- The event encouraged participants to identify real-world problems and think creatively to develop AI-based solutions.
- Students were introduced to modern AI tools, platforms, and technologies that support innovation and digital development.
